

## Quiz 11 for Bio301d

Read the one article linked below. It describes a 'legitimate' study in which eating chocolate was found to affect weight gain. You are asked questions about how those who conducted the study were able to achieve particular types of outcomes.

The article is here, but you may need to paste this address into your browser to get it to work:

As usual for these on-line quizzes, observe the following suggestions and rules:

- 1) Read before you start the quiz.
- 2) You are free to answer the questions while looking at the links. But you only have 90 minutes.
- 3) You are expected to answer the questions on your own.
- 4) You won't know if you answered correctly until after the due date. You should not see a score before then (the quiz is muted)
- 6) The quiz (11) and due date are **on Canvas**.
