

Bio301D On-line Quiz 3 (a comic strip on a rat experiment)

For this quiz, you should look at the link below that provides a short summary of 1970s studies done on rats and addiction. There will be 4 multiple choice questions, some on models, but some more general.

Some points about this assignment.

- 1) Go over the article before you start the quiz. Do not exit the quiz (once started) until you are done.
- 2) You are free to answer the questions while looking at the links.
- 3) You are expected to answer the questions on your own.
- 4) You won't know if you answered correctly until after the due date. You should not see a score before then.
- 5) The quiz and due date are on Canvas
